## KIYO IS TAKING SOUTH AMERICAN RECORD LIST TO S. A.

## T. K. K. RATES RAISED

## FROM MAKING RECORD

The T. K. K. South American steamer Kiyo Maru, which cleared here August 8 for Hilo, where she is now discharging freight consigned to that port, has a passenger list that breaks all records in the transportation of Oriental emigrants to South America. Of the 521 steerage passengers on board all but a few, booked for Honolulu and San Francisco, will go to South America.

Since the gentlemen's agreement with the United States the number of Japanese emigrants to South America has increased in great numbers. The policy of Australia has also made the southern continent attractive to people from Japan. The Kiyo's list of emigrants is said to represent the largest number of steerage passengers that ever crossed the Pacific on one boat.

The steamer also carried 45 young Japanese girls on their way to South America to become the brides of Japanese farmers who have already located there. The girls were selected by a marriage agency at Kobe from nearly 200 applicants. They underwent a strict examination as to physical condition and education.

Brazil is most attractive to the Japanese, who find the land cultivation profitable.

### KITSAP KEEPS INSIDE OF 20 DAYS ON TRIPS TO HAWAIIAN ISLANDS

With 520,000 feet of lumber consigned to the Lee Chu Lumber Company the American four-masted schooner Kitsap arrived here this morning from Port Townsend, Capt. H. J. Anderson is master. She was loaded at Port Blakely.

The Kitsap's voyages to the islands have become almost as regular as if she was running on schedule. On the last up trip she made it in 20 days, and coming down this time it was the same number of days. For a good many voyages she has not exceeded the 20-day run and several times she has bettered it.

### LOGAN SAILS MONDAY WITH MAIL FOR GUAM, MANILA AND ORIENT

The U. S. army transport Logan will arrive here Saturday afternoon from San Francisco with 298 bags of mail and dock at Pier 5. She will sail for Guam and Manila Monday afternoon taking mail for those places and also China and Japan.

Passengers from here for Guam are H. S. Burrell, civil engineer, U. S. N., under orders, and C. W. Edwards of the department of agriculture. The Logan will take 250 tons of freight from here for Guam and Manila.

### NEW LIGHTHOUSE APPROPRIATIONS FOR PACIFIC COAST

The act of Congress approved July 1, 1916, makes appropriations for special work in the lighthouse service. New work to be done on the Pacific coast is as follows:

Light and fog signal station at or near Kellett Bluff, Henry Island, Wash., at some point on the west coast of San Juan Island, Wash., \$40,000.

Improving the aids to navigation at or near the entrance to Coquille River, Oregon, \$40,000.

Light and fog signal station at Point Vincente, Cal., \$80,000.

After frequent conferences between the representatives of the Toyo Kisen Kaisha and the delegates appointed from the leading Japanese merchants in Yokohama and Kobe engaged in South American trade, the matter of increased freight rates has been finally settled. The mediation of the department of communications, which is controlling shipping affairs, aided in reaching an agreement. At present the rates will be raised only 50 per cent.

Giving increased navigation expenses as the reason the Toyo Kisen Kaisha notified its leading shippers some time ago of its intention of raising freight rates between 150 and 200 per cent for all merchandise bound for South America. Through the official mediation it was agreed to raise only 50 per cent, the increase to become effective on the Anyo Maru leaving Yokohama for South America September 25.

### HARBOR NOTES

The British steamer Kestrel will leave for Fanning and Washington islands August 25.

The next mail from San Francisco, 298 bags, will come Saturday afternoon in the U. S. army transport Logan.

According to reports from Yokohama the T. K. K. steamer Nippon Maru will leave there for Honolulu August 15 and the Shinyo Maru August 26.

The four-master schooner Mary E. Foster, which brought lumber here for Allen & Robinson, is expected to sail in about a week for Puget Sound.

Because of a severe typhoon which has been raging along the China and Japan coasts, many vessels are leaving Japanese ports for San Francisco several days late.

The schooner Helene, with 1,200,000 feet of lumber for Allen & Robinson, is expected to arrive here any day now from Port Gamble. She is 18 days out today.

The next mail from San Francisco will go in the Matsun steamship Maru, sailing at noon Tuesday. The Maru sails for Honolulu this evening at 8 o'clock, returning Monday.

The steamer Brunswick has finished discharging her cargo of lumber and is loading pine. She is expected to sail Saturday, taking 350 tons of canned pine for San Francisco.

As a result of negotiations between the Nippon Yusen Kaisha and the Kobe Chamber of Commerce, the former has decided to have their freight vessels call at Marseilles, France.

The Oceanic steamer Ventura left Pago Pago Thursday and will, therefore, arrive here Thursday, August 17. There are a few first cabin berths left and the second cabin and steerage are now full.

Among other developments in connection with the expansion of trade between Australia and the Pacific coast, it is announced that the Union Steamship Company has decided to inaugurate a regular fortnightly cargo service to San Francisco, Seattle, Tacoma and Victoria.

The schooner Mahukona, Capt. Charles McDonald, which arrived here Thursday afternoon from Newcastle with coal for the Inter-Island, was towed to Hilo this morning by the Inter-Island steamer Kaulani. From Hilo the Mahukona will go to Port Townsend to load lumber for a return trip to Australia.

The John B. Rose Co. of Newburgh, certified at Albany, N. Y., that it has increased its capital from \$500,000 to \$1,000,000.

Seven navy hydro-aeroplanes and several sea sleds were destroyed at the Pensacola naval station by the recent hurricane.

Regardless of the fact that she was forced to run at a reduced rate of speed for five days out of Japan and on the fifth day put back for six hours because of a typhoon along the China and Japan coasts the U. S. army transport Dix arrived here Thursday afternoon 17 days and 21 hours out of Mike, Japan. "If it had not been for the storm," said Capt. Jas. W. Scott, "we certainly would have made a record run from Japan. From Manila we made the run in less than five days, which is a record."

The Dix left Manila July 16, and Mike July 21. She will remain here until August 19 or 20, and then sail for Seattle, her home port.

Capt. Scott is the new master, succeeding Capt. W. J. Crangle, who has taken the former's command on the U. S. army transport Merritt, which runs between the islands in the Philippine group.

Quartermaster Agent Andrew Ryan, who has been on the Dix for several voyages, will be transferred to the Sherman.

The Dix's cargo consists of 5600 tons of coal for Honolulu and 550 tons of sugar and 150 tons of varnish gum and mother of pearl shells for Seattle. Mail was two sacks. There was also one passenger for here, an enlisted soldier.
